# YOUR BEST **SOURCING** PARTNER

# ABOUT US

**EFDEE PHARMA PVT. LTD. (EPPL)** is a specialized manufacturer of solid oral dosage forms, committed to the development, production, and global distribution of high-quality pharmaceuticals formulations—including pellets, granules, tablets, and capsules.

Leveraging **Current Good Manufacturing Practices (cGMP)**, robust quality systems, and a strategic business approach, EPPL ensures excellence across every stage of its operations. Our capabilities span the entire product lifecycle—from concept development to the delivery of market-ready finished dosage forms. This includes formulation R&D, analytical method development, pilot-scale batches, process validation, stability studies, and commercial-scale manufacturing.

All products are manufactured in full compliance with the latest cGMP standards and are rigorously tested to meet or exceed specifications outlined by the applicable Pharmacopoeias or equivalent compendial requirements. Our quality assurance programs and in-process quality controls are deeply integrated into every phase of manufacturing and packaging—ensuring consistency, safety, and efficacy in every batch delivered.

## VISION

At EFDEE PHARMA PVT. LTD., our vision is to demonstrate excellence across all facets of our business and to establish ourselves as a recognised leader in the development and manufacture of solid oral dosage forms.

As a growing pharmaceutical company, we are firmly focused on adopting internationally benchmarked GMP practices to ensure world-class quality and operational integrity. Our ambition is to position EFDEE PHARMA PVT. LTD. among the industry's most respected players by consistently improving our technical capabilities, expanding our product portfolio, and exploring new growth avenues.

We aspire to achieve a targeted growth over the next five years—reflecting our strategic intent and deep commitment to innovation, quality, and long-term sustainability in a highly competitive global market.

## MISSION

At EFDEE PHARMA PVT. LTD., our mission is to continuously enhance shareholder value by sharpening our competitive edge through strategic excellence and organizational transformation.

We are committed to driving profitability by proactively pursuing new business opportunities across the national landscape, while remaining passionate and accountable in meeting—and exceeding—our customers' expectations.

Our goal is to deliver cost-effective, technologically advanced, and high-quality pharmaceutical products that contribute meaningfully to better health outcomes.

We also strive to attract, develop, and retain talented individuals by fostering a challenging and rewarding work environment—one that inspires innovation, collaboration, and a shared vision for long-term success.

## CORE VALUES

At EFDEE PHARMA PVT. LTD., we are dedicated to building a system-driven organisation—one that empowers individuals, encourages innovation, and fosters a workplace culture where people take pride in contributing and growing together.

We strive to provide an environment where every team member is given the opportunity and support to perform at their highest level and help shape our company into a truly exceptional place to work.

Our growth is built brick by brick, through a blend of knowledge, ethical conduct, skill, and a positive outlook. These attributes serve as the pillars of our organisation and guide the way we operate each day.

## QUALITY POLICY

EFDEE PHARMA PVT. LTD. – Committed to Partner Confidence and Product Integrity

At EFDEE PHARMA, our commitment to quality is built on a foundation of responsibility—not only to patients around the world but also to our trusted partners who place their manufacturing confidence in us. As a growing pharmaceutical manufacturer, we are dedicated to delivering safe, effective, and compliant pharmaceutical products through robust systems, scientific integrity, and operational excellence.

We are driven by a quality-first mindset in every product we manufacture on behalf of our clients. Whether it's an established formulation or a new development, we uphold global regulatory standards and follow our core values of integrity, courage, respect, and teamwork in everything we do.

Our Quality System, as defined in our Quality Manual, is applied organisation-wide and serves two key purposes:

- **It is integrated, ensuring patient safety and the consistent fulfilment of customer requirements through coordinated, standardised practices across all departments.**
- **It is also specialised, enabling us to tailor our operations to the unique regulatory and technical demands of each partner, product, and dosage form—ensuring agility, precision, and commercial relevance.**

This Quality System governs all stages of the product life cycle, from development and validation through to commercial production, packaging, and release. It is designed to adapt continuously to evolving regulatory expectations and to support our contract partners' long-term success in competitive markets.

## PRODUCT DEVELOPMENT

At EFDEE PHARMA PVT. LTD., our product development process is built on scientific rigor, regulatory compliance, and cross-functional collaboration. Each stage is designed to ensure technical excellence and market readiness.

Our integrated development capabilities include:

- **Formulation Development:**  
Designing robust and scalable formulations for solid oral dosage forms (tablets, capsules, pellets, granules), tailored to product stability and bioavailability.
- **Analytical Method Development & Validation:**  
Developing and validating precise, reproducible methods in accordance with ICH Q2(R1) and FDA guidelines to ensure quality attributes are accurately measured.
- **Pilot Scale-Up & Technology Transfer:**  
Executing batch scale-up under simulated production conditions to identify critical process parameters and facilitate seamless technology transfer.
- **Process Optimization & Validation:**  
Conducting process validation in line with cGMP and ICH Q8/Q9 principles to ensure batch-to-batch consistency and regulatory compliance.
- **Stability Studies:**  
Performing stability testing under ICH-recommended conditions (Q1A-R2) to establish shelf life and appropriate storage conditions.

## MANUFACTURING CAPABILITIES

EFDEE PHARMA PVT. LTD. operates state-of-the-art, cGMP-compliant manufacturing facilities located in Gujarat, India. Our infrastructure is designed to support the production of a diverse portfolio of solid oral dosage forms, including tablets, capsules, pellets, and granules, across various potencies and therapeutic categories.

We employ cost-effective and scalable production strategies that prioritize:

- **The use of high-quality, pharmacopeia-grade raw materials**
- **Operational efficiency and maximized throughput**
- **Sustainable practices, including energy conservation**

All manufacturing and processing areas are maintained under temperature- and dust-controlled conditions, designed to protect product integrity and minimize contamination risks.

Each process and equipment line is rigorously qualified and validated to ensure repeatability, regulatory compliance, and product consistency in line with global regulatory standards (USFDA, EMA, WHO GMP, etc.).

<b>Pellets</b>	<b>35 MT Per Month</b>
<b>Granules / Powder</b>	<b>50 MT Per Month</b>
<b>Tablets</b>	<b>100 Million Per Month</b>
<b>Capsules</b>	<b>20 Million Per Month</b>

## CONTRACT MANUFACTURING

EFDEE PHARMA provides high-quality, competitively priced pharmaceutical products and scalable contract manufacturing solutions. Each project is managed by a dedicated team to ensure seamless communication, strict timelines, and full compliance.

What Sets Us Apart:

- **High-Capacity Manufacturing to support both routine and large-scale production**
- **Experienced Technical Support from development through delivery**
- **Custom Orders & Flexible Solutions tailored to your market needs**
- **Cost-Effective Production without compromising quality or compliance**

We are committed to being a trusted extension of your business—delivering value, reliability, and quality you can count on.

## CUSTOMER SERVICE EXCELLENCE

At EFDEE PHARMA PVT. LTD., customer satisfaction is at the heart of everything we do. We are committed to providing timely, high-quality services and maintaining transparent communication at every stage of product development and supply.

With the capacity to handle large-volume batch sizes, we are well-equipped to support our clients with scalable solutions, whether for new product development or ongoing production requirements. Our team remains readily accessible to respond to customer needs, offering flexible, cost-effective solutions tailored to market demands. Our approach is built on trust, professionalism, and consistent performance. For us, earning and sustaining your confidence is the truest measure of our success.

Our Commitment:

- **Courtesy and Dependability in every interaction**
- **Competitive and Transparent Pricing**
- **Reliable, On-Time Deliveries – even at high production volumes**

We take pride in being a dependable partner who understands your priorities—and delivers without compromise.
